

## Series 3000 – Business & Non-Instructional Operations

### 2. Income

#### D. Tuition Fees

Tuition will be determined annually by the Board of Education. Students will be charged any excess costs for programs and services provided beyond the general education curriculum in addition to the base tuition rate. Non-resident attendance with tuition shall be for one school year or less to be extended pending approval. The Superintendent shall retain the right to terminate a non-resident student should the student violate school or district policy as set forth in the contract between the parents/guardians and the Board.

Non-resident students who are children of Suffield Public Schools' employees and food service employees who serve the Suffield Public School will be charged tuition equal to (a) 20% of the Suffield per student expense established by the Board of Education, plus (b) the total of any excess costs for programs and services provided beyond the general education curriculum. The Suffield per student expense is defined as the approved annual budget less transportation, special education, and free/reduced lunch which is then divided by the projected enrollment.
