(8) Student Records; Confidentiality

**STATE STATUTES REGARDING
CLASSIFICATION OF EDUCATION RECORDS**

The Assistant Superintendent is considered as the custodian of records and will ensure that student's education records are kept confidential.

DEFINITIONS

- A. Access is defined as the right to inspect or review a student's education records or any part thereof. Access may include the right to receive copies of records under limited circumstances.
- B. Authorized Representative means any entity or individual designated by the Board, a State educational authority, or an agency headed by an official listed in 34 C.F.R. § 99.31(a)(3), to conduct -- with respect to Federal- or State-supported education programs-- any audit or evaluation, or any compliance or enforcement activity in connection with Federal legal requirements that relate to these programs.
- C. Biometric Record, as used in the definition of personally identifiable information, means a record of one or more measurable biological or behavioral characteristics that can be used for automated recognition of an individual, such as fingerprints, retina and iris patterns, voiceprints, DNA sequence, facial characteristics and handwriting.
- D. De-identified Education Records means education records or information from education records from which all personally identifiable information has been removed, and for which the district has made a reasonable determination that a student's identity is not personally identifiable, whether through single or multiple releases, taking into account other reasonably available information.
- E. Directory Information includes information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, the parent's name, address and/or e-mail address, the student's name, address, telephone number, e-mail address, photographic, computer and/or video images, date and place of birth, major field(s) of study, grade level, enrollment status (full-time; part-time), participation in school-sponsored activities or athletics, weight and height (if the student is a member of an athletic team), dates of attendance, degrees, honors and awards received, the

most recent previous school(s) attended, and student identification numbers for the limited purposes of displaying a student identification card. The student identification number, however, will not be the only identifier used when obtaining access to educational records or data. Directory information does not include a student's social security number, student identification number or other unique personal identifier used by the student for purposes of accessing or communicating in electronic systems unless the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a PIN or password.

F. Disciplinary Action or Proceeding means the investigation, adjudication or imposition of sanctions by an educational agency or institution with respect to an infraction or violation of internal rules of conduct applicable to students.

G. Disclosure means to permit access to or to release, transfer, or other communication of personally identifiable information as contained in education records by any means, including oral, written or electronic means, to any party except the party identified as the party that provided or created the record.

H. Education Records

1. Education Records means any information directly related to a student that is recorded in any manner (e.g., handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche) and that is maintained by the school system or persons acting for the school system.

2. Education Records do not include:

- a) private, personal, or working notes in the sole possession of the maker thereof, and which are not accessible or revealed to any other individual except a "substitute";
- b) records maintained by a law enforcement unit of the school district that were created by that unit for the purpose of law enforcement;
- c) employment records used only in relation to the student's employment by the school district that are 1) made and maintained in the normal course of business, 2) relate exclusively the student's capacity as an employee, and 3) are not made available for any other purpose;
- d) records on an eligible student (i.e. over 18 or attending a postsecondary educational institution) that are considered "treatment records" as they meet the following criteria: 1) the records are maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional capacity or assisting in a paraprofessional capacity, 2) the records are made in connection with the treatment of the student and 3) the records are disclosed only to individuals providing such treatment (treatment does not include remedial educational activities or activities that are part of the program or instruction of the school district); however,

the school district must, upon request, permit an eligible student to have a physician or other appropriate professional of the student's choice review his/her treatment records;

e) records created or received by the school district after an individual is no longer a student in attendance and that are not directly related to the individual's attendance as a student; and

f) grades on peer-graded papers before they are collected and recorded by a teacher.

- I. Eligible Student is a student or former student who has reached 18 years of age or is attending an institution of post-secondary education or is an emancipated minor.
- J. Law Enforcement Unit is an individual, office, department, division, or other component of an educational agency or institution, that is officially authorized or designated by that agency or institution to 1) enforce laws or refer matters of law enforcement to appropriate authorities or 2) maintain the physical security and safety of the agency or institution.
- K. Legitimate Educational Interest means the need for a school official to review an education record in order to fulfill his or her professional responsibilities.
- L. Parent is defined as a parent or parents of a student, including a natural parent, an adopted or a legal guardian, or an individual acting as a parent in the absence of a parent or guardian. If parents are divorced or legally separated the parent granted custody and the parent not granted custody of a minor child both have the right of access to academic, medical, hospital, or other health records of the child, unless a court order prohibits access. Whenever a student has attained the age of 18 years or is attending an institution of post-secondary education, the permission or consent required of, and the rights accorded to, the parents or guardians of the student shall thereafter only be required of, and accorded to, the student. A parent who is incarcerated is also entitled to knowledge of and access to all educational, medical or similar records maintained in the cumulative record of any minor student of such incarcerated parent except in situations where (1) such information is considered privileged as defined in C.G.S. 10-154a, (2) such incarcerated parent has been convicted of sexual assault, or aggravated sexual assault, or (3) such incarcerated parent is prohibited pursuant to a court order.
- M. Personally Identifiable Information includes, but is not limited to, the student's name; the name of the student's parent or other family members; the address of the student or his/her family; a personal identifier, such as the student's social security number, student number or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the school district reasonably believes knows the identity of the student to whom the education record relates.

N. School Official is a person employed by the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Education; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, consultant, therapist, or school resource officer); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

O. Signed and Dated Written Consent to disclose personally identifiable student information from a student’s education records must specify the records to be disclosed, the purpose of disclosure and the party to whom such records should be provided. Consent may include a record and signature in electronic form provided that the consent identifies and authenticates a particular person as the source of electronic consent.

Should the notice be expunged in accordance with this provision, a record of the fact that the student had been suspended or expelled shall be maintained apart from the student’s cumulative record, for the limited purpose of determining whether any subsequent offenses by the student would constitute the student’s first suspension or expulsion.

Model Notification of Rights Under FERPA for Elementary and Secondary Institutions

The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, et seq., affords parents and eligible students (*i.e.*, students over 18, emancipated minors, and those attending post-secondary educational institutions) certain rights with respect to the student's education records. They are:

(1) The right to inspect and review the student's education records within forty-five (45) calendar days of the day the District receives a request for access.

Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The principal [or appropriate school official] will make arrangements for access and notify the parents or eligible student of the time and place where the records may be inspected.

(2) The right to request the amendment of the student's education records that the parents or eligible student believe are inaccurate or misleading, or otherwise violate the student's privacy rights.

Parents or eligible students who wish to ask the District to amend a record should write the school principal [or appropriate school official], clearly identify the part of the record the parents or eligible student want changed, and specify why it should be changed.

If the District decides not to amend the record as requested by the parents or eligible student, the District will notify the parents or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parents or eligible student when notified of the right to a hearing.

(3) The right to consent to privacy of personally identifiable information in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception that permits disclosure without consent is disclosure to a school official with legitimate interests. A school official is a person employed by the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Education; a person or company with whom the District has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the District discloses a student's education record without consent to officials of another school, including other public schools, charter schools, and post-secondary institutions, in which the student seeks or intends to enroll or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the agency that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-4605

Unless notified in writing by a parent or eligible student to the contrary within two weeks of the date of this notice, the school district will be permitted to disclose "Directory Information" concerning a student, without the consent of a parent or eligible student. Directory Information includes information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, the parent's name, address and/or e-mail address, the student's name, address, telephone number, e-mail address, photographic, computer and/or video images, date and place of birth, major field(s) of study, grade level, enrollment status (full-time; part-time), participation in school-sponsored activities or athletics, weight and height (if the student is a member of an athletic team), dates of attendance, degrees, honors and awards received, the most recent previous school(s) attended and student identification numbers for the limited purposes of displaying a student identification card. The student identification number, however, will not be the only identifier used when obtaining access to educational records or data. Directory information does not include a student's social security number, student identification number or other unique personal identifier used by the student for purposes of accessing or communicating in electronic systems unless the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a PIN or password.

The school district may disclose directory information about students after they are no longer in enrollment in the school district. Notwithstanding the foregoing, the district will continue to honor any valid objection to the disclosure of directory information made while a student was in attendance unless the student rescinds the objection.

An objection to the disclosure of directory information shall not prevent the school district from disclosing or requiring a student to disclose the student's name, identified or institutional email address in a class in which the student is enrolled. Parents and/or eligible students may not use the right to opt out of directory information disclosures to prohibit the school district from requiring students to wear or display a student identification card.

The written objection to the disclosure of directory information shall be good for only one school year. School districts are legally obligated to provide military recruiters and institutions of higher learning, upon request, with the names, addresses and telephone numbers of secondary school

students, unless the secondary student or the parent of the student objects to such disclosure in writing. Such objection shall be in writing and shall be effective for one school year. In all other circumstances, information designated as directory information will not be released when requested by a third party unless the release of such information is determined by the administration to be in the educational interest of the school district and is consistent with the district's obligations under both state and federal law.
